

Horizons in soil conservation: protecting pedodiversity

Edoardo A.C. Costantini President Elect - International Union of Soil Sciences

World Soil Day WSD 2020 Celebration in the Russian Federation

Soil ecosystem services

- •Production of food, fuel & energy
- •Regulation of nutrients and uptake
- •Clean air & water
- •Regulation of runoff and sediment delivery
- •Decomposition and cycling of organic matter
- •Gas exchange and carbon sequestration
- Medicines
- •....
- •.....
- •....

First 30 cm?

And then?

Soil self-organization

Zanella A. et al., 2018

Pedodiversity

Food and Agriculture Organization of the United Nations

World reference base for soil resources 2014

International soil classification system for naming soils and creating legends for soil maps

WORLD SOIL RESOURCES REPORTS

Update 2015

Threats to pedodiversity: erosion

Threats to pedodiversity: bulldozer erosion

Threats to pedodiversity: bulldozer erosion

Threats to pedodiversity: agricultural intensification

Threats to pedodiversity: urban sprawl 0.43% of land surface

Figure 1. Satellite derived estimates of constructed area densities for 2000–2001 in a 1 square kilometre grid. The figure shows these values aggregated into four greyscale levels with percentage cover ranging from 0% to 100%

Soil sealing: ec.europa.eu (2012)

Protecting soil selforganization and pedodiversity to protect soil health and ecosystem services

A healthy soil is capable of providing most terrestrial ecosystem services, therefore contributing to achieve the SDGs and human well-being

Vargas R., 2020
